to sleep and occasionally dine at, but
to sleep and occasi intrust in a coach and then thrown in the river, as was the drowned merchant Fellner. No friend knew that she had come to the city, and it was absolutely essential that no one should ever know. She had commenced an action for divorce against her husband, and pending the result, she had been guilty of a laison, which, if discovered, would defeat the action she had commenced. She came very near losing her life during the operation, so near that a certain medical gentleman had to be called in for consultation. The evils attending this crime, not to speak of its immorality, are fearful to the patient, as well as to children that may afterwards be born. The human system receives a shock from which it seldom recovers. Many become perfect wrecks, some linger for a year or two, pining away like shadows, until death relieves them from their sufferings.

One evening a short time ago the victim and the seducer walked out together after dusk to the doctor's institute, where he events for a container.

"And I suppose this is to be the case every Saturday? But I know what I'll do. I know—it's no use, Mr. Caudle, your calling me a good creature: I'm not such a fool to be coared in that way. No; If you want to go to sleep, you should come home in Christian tims, not at half-past tyclve. There was a time when you were as regular. was a time when you were as regular at your fireside as the kettle. That was when you were a decent man, and didn't go amongst Heaven knows who, drinking and smoking, and making what you think your jokes. I never heard any good come to a man who cared about jokes. No respectable tradesman does. But I know what I'll do: I'll scare away your Skylarks. The house serves liquor after twelve of a Saturday; and if I don't write to the magistrates, and have the license taken away, I am not lying in this bed this night. Yes, you may call me a foolish woman; but no, Mr. Caudle, no; it's you who are the foolish man; or worse than a foolish man; you're a wicked one. If you were to die tomorrow—and people who go to public houses do all they can to shorten their lives—I should like to know who would ives-I should like to know who would write upon your tombstone, 'A tender usband and an affectionate father?' -I'd have no such falsehoods told of

"Going and spending your money, and—nonsense! don't tell me—no, it you were ten times to swear it, I wouldn't believe that you only spent eighteen pence on a Saturday. You can't be all those hours, and only spend eighteen pence. I know better. I'm not quite a fool, Mr. Caudle, A great deal you could have for eighteen pence. not quite a fool, Mr. Caudie. A great deal you could have for eighteen pence? And all the Club married men and fathers of families. The more shame for 'em! Skylarks, indeed! They should call themselves Vultures; for they can only do as they do by eating up their innocent wives and children. Eighteen pence a week! And 4f'it was only that—do you know what fifty-two eighteen pences come to in a year? Do you ever think of that, and see the gowns I wear? from both parents, were possessed of high mental and bodily endowments of a common origin, enhanced and remarkable quanties of body and mind; but it is generally at the expense of unfortunate and deeply afflicted brothers and sisters. We believe few instances can be given where such enhanced endowments are common to all the off-spring; while instances are not unfrequent where nearly all, in a few, perhaps, every child is afflicted either in bedy or mind, and sometimes in both. The State has, in a large majority of cases, to educate, and often support for life, these afflicted children. Has she not then aclear and indisputable right to interpose her authority to prevent matrimonial alliances, so productive of private calamity and public injury? The state is thereby not only defrauded of the labor, usefulness energy, and intelligence of a considerable portion of her citizens, but she has, in addition, the burden of their education and support, and in the case of uneducated idiots, their support for life, thus unreasonably superinduced, upon her. The unfortunate, by unavoidable casualty, whe must and ought cheerfully to provide for; but surely she is not bound, in reason and good policy, to legalize marriages so productive of private and public damage. Indeed it is preposterous, not to say wrong, that she should do it. A law of a few lines would cut off, henceforward, the expenditure of thousands of dollars for the support of hencelorward, the suppousands of dollars for the suppousands of of a life-time of sorrow and remany estimable families. We to say, emphatically, that this opini is not a theory, but is based upon assertained and indubitable facts.
